To Whom It May Concern

Please accept this letter as reference for R&B Cormier Inc.

R&B Cormier has provided contracting services in support of Ontario's Forest Resources Inventory Program since the mid 1990's. They have provided a variety of services for the provincial inventory program including field sampling for calibration of air photo interpretation, air photo interpretation, GIS production, individual feature recognition projects and a variety of smaller projects related to forest inventory.

R&B Cormier has completed forest inventory production for both the Ministry of Natural Resources and Forestry and forest industry in Ontario. Their work has always been completed effectively and efficiently and the company continues to be forward thinking with respect to inventory technology. They have proven to be innovative partners who can focus experienced resources on any size project.

Projects that R&B Cormier has completed for the Provincial Forest Inventory Program include Quetico Provincial Park, Gordon Cosens Forest, Mazinaw-Lanark Forest, Temagami Forest and Pukaskwa National Park. They have adapted easily to the new enhanced FRI production stream and continue to demonstrate their commitment to excellence.

I would be happy to discuss the high quality and productivity of R&B Cormier's forest inventory work if you feel further information is required.

A handwritten signature in black ink that reads "Murray Radford". The signature is fluid and cursive, with a large initial "M" and a long, sweeping tail.

Murray Radford
Coordinator, Forest Resources Inventory Program
